### • Kalpiytia bay

Is located 10min. by car from the base with accomodation. Other way how to get to the spot is kite there on the open sea side. Lagoon with shalow water with sandy bottom is surrounded by long and opened beaches with plenty of space with no traffic. There is shelter to protect from the wind and sun to have a rest between kite sessions. Off shore wind and flat water offers funky fresh kite experience.

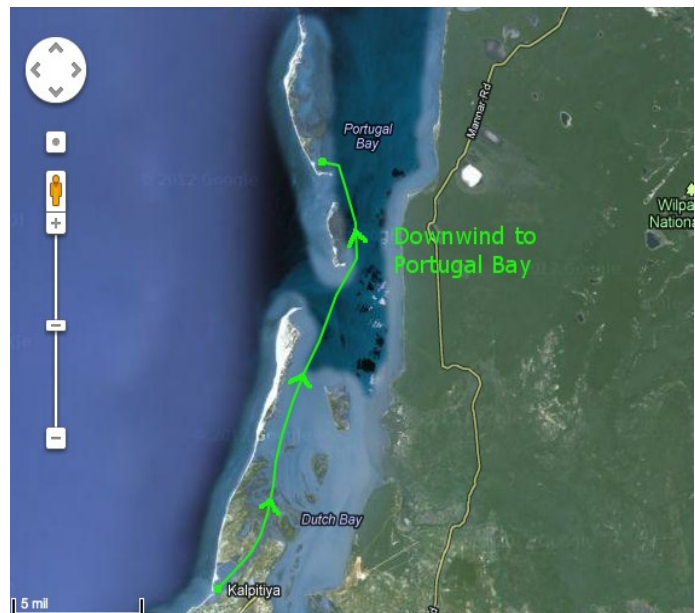

- Portugal bay

Remote and even more quiet kite spot is set at one of the islands in Portugal bay. It takes around 1 hour by boat, downwind from Kalpitya bay to reach dream spot.

This island has glassy water on one side and waves on the other with endless space.

Not many kites had a chance to experience such a conditions with so many options for all levels and styles of kiteboarding.

To reach Portugal bay, kites can choose 24 km downwinder with stops on various islands that are on the way.
